This is a Request for Quote for Book Browser carts for the Jonathan Trumbull Library. We will need 8 double-sided carts and 6 single-sided carts. The quote must be delivered by November 15, 2018.

The double-sided carts should have approximately 20 linear feet of shelf space. The dimensions of the carts should be approximately 48" x 24" x 32" high. The top shelves should allow the books to be book faced and the two rows of lower shelves should allow the books to be spine out. Carts should be made of finish grade plywood, with strong locking casters. The finish should be solid, durable and repairable.

Single-sided carts should have approximately 10 linear feet of shelf space. Dimensions should be approximately 48"x16"x32" and resistant to falling over. The top shelves should allow the books to be book faced and the two rows of lower shelves should allow the books to be spine out. Carts should be made of finish grade plywood, with strong locking casters. The finish should be solid, durable and repairable.

Delivery should be within 8 weeks of acceptance of proposal and deposit.

Quotes should be sent to:
